## STADIUM FLOOD LIGHT

IKIO's Raydent Flood Light features visor technology for precise light control. With superior efficacy and multi-faceted optics, it delivers low-glare, powerful illumination for large stadiums, playfields, and sports arenas. Its rugged die-cast design ensures durability in harsh weather, while the efficient heat sink and 3.04ft<sup>2</sup> EPA provide long-term stability for the lighting system. This combination makes Raydent the ideal choice for venues demanding reliable and high-performance lighting.

**Applications:** Stadiums and Sports Venues, Outdoor Advertising, Gymnasiums, Plazas, Airports, Courtyards, Public Areas

## FEATURES

- **Premium multifaceted** polycarbonate lens maximizes light output while ensuring even distribution.
- With an **IP65 rating and EPA of up to 3.04ft<sup>2</sup>**, the fixture is built to deliver stable performance in harsh outdoor environments.
- **1-10V dimming control** offers flexible light output adjustments, while instant start technology eliminates flickering and humming.
- **Visor and laser** pointer options available.
- **Compatible with DMX control**, allowing dynamic behaviors such as color-changing, grouping, scheduling, and remote operation.
- Equipped with **6kV + 10kV** surge protection for reliability during fluctuations.
- **Engineered for easy installation**, this fixture simplifies the transition to LED, making it ideal for quick, cost-effective upgrades.

Note: Warranty and Qualifications can vary per item, see technical data sheets (TDS) for specific information. • Not all product variations listed are DLC® qualified. Visit [www.designlights.org/search](https://www.designlights.org/search) to confirm qualification. • Published lumens on LED products are approximate and may vary slightly. • Specifications are subject to change without notice. • Photos and drawings may not be to scale and are for general reference only.
