# T5 TUBE

## TYPE B

IKIO's T5 Tube – Type B is engineered to be a seamless replacement for your existing T5 fluorescent lights, as it comes with a ballast bypass design. The luminaire offers a variety of CCT options, allowing flexibility for a multitude of applications. Outfitted with high-quality lenses—available in both frosted and clear variants—an integrated driver, and durable construction, it delivers lasting illumination with minimal maintenance requirements. Upgrade effortlessly to our T5 tube lights for a streamlined lighting upgrade!

**Applications:** Offices, Schools, Hospitals, Retail Stores, Lobbies, General Areas, Residential Spaces

## FEATURES

- Can run directly off the main switch without any major rewiring.
- An in-built driver results in enhanced efficiency and decreased energy and maintenance costs.
- Ideal for operation in dry and damp areas and in low temperatures.
- Delivers exceptional efficacy and light output with a wide beam angle; there is no flickering, humming, or dark spots.
- Designed to have that perfect uniform visual appearance to make an easy replacement for traditional lights.

Note: Warranty and Qualifications can vary per item, see technical data sheets (TDS) for specific information. • Not all product variations listed are DLC® qualified. Visit [www.designlights.org/search](https://www.designlights.org/search) to confirm qualification. • Published lumens on LED products are approximate and may vary slightly. • Specifications are subject to change without notice. • Photos and drawings may not be to scale and are for general reference only.
