

T8 FLICKER FREE TUBE

TYPE B

COMMERCIAL LIGHTING | LED TUBES

PRODUCT DETAILS

T8 Flicker Free Tube – Type B is a ballast bypass tube and a special replacement for traditional T8 fluorescent lamps. The flicker free light output, exceptional efficacy and sturdy construction of the luminaire enable its usage in a wide range of application areas. The luminaire has a shatterproof design that aptly meets the required NSF standards, so you can rest assured of its longevity and durability. Additionally, while having a perfectly uniform visual appearance, the fixture also delivers well in terms of performance and saves up to 70% of energy over traditional lighting lamps.

FEATURES

- **Low energy consumption and maintenance cost.**
- **High performance** – exceptional efficacy and light output with a wide beam spread.
- **Ease of use** – can be run directly off the main power source without any major rewiring.
- **Flicker free light output** without any dark spots.
- **Sturdy construction** – use of shatterproof material that meets NSF standards.
- **Options available** – single ended ballast bypass / double ended ballast bypass

APPLICATIONS

Offices	Residential Spaces
Retail Stores	Schools
General Offices	Lobbies
